HAIR EXTENSIONS

ABOUT OUR HAIR

- - We use the Diamond Human Hair Extension System.
- - 100% Human Hair is attached with a thermal moulding adhesive. The individual strands are attached and detached with no damage to your own hair.
- - The hair lasts between 3-5 months, is easy to manage and looks amazing!
- - New hair is used with each application allowing more freedom to change colours and looks with each new set.
- - The hair has a medium texture and slight wave if left natural. This wave can be straightened easily or scrunched to encourage more wave, so is very versatile.
 - These extensions are of the highest quality and so natural they blend with the majority of hair types.

PROCESS

First, the initial complimentary consultation where the following information is explained:

- - How our Hair Extensions work in great detail.
- - It will be determined if your hair is suitable for extensions.
- - How they are applied and removed.
- - The colours you have to choose from and sample hair.
- - The home care and maintenance required.
- - The costs involved.

If you choose to book this service the specialist will return to attach the Hair Extensions whereby:

- - You will also be educated thoroughly on home care and maintenance.
- - A follow up consultation for a check up will be booked to ensure you are maintaining the quality and desired result. This is 1 month later.
- - When your extensions are required to be removed the specialist can be scheduled to return.
